

**Electrical and Computer Engineering, University of Minnesota – Twin Cities**, invites applications for multiple faculty positions in:

- (1) Power and energy systems
- (2) Communications and signal processing
- (3) RF/microwave/terahertz circuits and systems

And as part of the MnDRIVE Initiative <https://mndrive.umn.edu/robotics>

- (4) Embedded systems.

Positions are expected to be at the rank of assistant professor, although exceptional candidates at all ranks in all areas of strategic need will be considered. We are especially interested in receiving applications from women and members of other underrepresented groups.

Successful candidates will have outstanding academic and research records and are expected to establish a vigorous, funded research program, teach at the undergraduate and graduate levels, and be involved in service to the university and the profession. An earned doctorate in an appropriate discipline is required at the time of the appointment. Rank and salary will be commensurate with qualifications and experience.

Positions are open until filled, but for full consideration, apply online by December 15, 2015.
